On this date, Caltrans Office of Structure Materials (OSM) Quality Assurance Inspector (QA) Raymond Lara was present at jobsite in Zhenhua Port Machinery Company facility on Changxing island, China for the purpose of observing and monitoring the fabrication of the SAS Superstructure.

**Outside Area West of the Bay Sub-Assembly**

The Quality Assurance Inspector performed Ultrasonic Testing (UT), prescreening, on completed Partial Joint Penetration (PJP) groove welds, tack weld areas only, on Deck Panel DP554-001. The prescreening is in effort to determine the condition of said tack welds for compliance with project specifications. Numerous indications indicative of cracks were located.

**Summary of Conversations:**

No relevant conversations on this date.

**Comments**

This report is for the purpose of determining conformance with the contract documents and is not for the purpose of making repair or fit for purpose recommendations. Should you require recommendations concerning repairs or remedial efforts please contact Peter Dautermann 150 0219 9593, who represents the Office of Structural Materials for your project.
